You are responsible for identifying evidence that demonstrates your development of the specific skills.

Research Skills
Information literacy skills (possible demonstrations)
- Collect, record and verify data
- Access information to be informed and inform others
- Make connections between various sources of information
- Understand the benefits and limitations of personal sensory learning preferences when accessing, processing and recalling information
- Use memory techniques to develop long-term memory
- Present information in a variety of formats and platforms
- Collect and analyse data to identify solutions and make informed decisions
- Process data and report results
- Evaluate and select information sources and digital tools based on their appropriateness to specific tasks
- Understand and use technology systems
- Use critical-literacy skills to analyse and interpret media communications
- Understand and implement intellectual property rights
- Create references and citations, use footnotes/endnotes and construct a bibliography according to recognized conventions
- Identify primary and secondary sources

Reflection
Describe how have you been demonstrating, using and developing information literacy skills?
Media literacy skills
- Locate, organize, analyse, evaluate, synthesize and ethically use information from a variety of sources and media
- Demonstrate awareness of media interpretations of events and ideas (including digital social media)
- Make informed choices about personal viewing experiences
- Understand the impact of media representations and modes of presentation
- Seek a range of perspectives from multiple and varied sources
- Communicate information and ideas effectively to multiple audiences using a variety of media and formats
- Compare, contrast and draw connections among (multi) media resources

Reflection
Describe how have you been demonstrating, using and developing media literacy skills?

Academic honesty: Every instance of the use of the work or ideas of others must be cited in a format that is consistent and in line with recognized convention.

Bibliography: An alphabetical list of all sources used to complete the project; resources should be explicit, appropriate and noted in the project report.

For you to achieve 7-8 you need to demonstrate excellent research skills:
- An extensive range of sources and variety of source types have been researched.
- Sources are consistently and effectively evaluated for their reliability and relevance.
- The bibliography is appropriate, consistent and used with sophistication in the project.
- There is extensive evidence of a broad range of research skills.

Examples of evidence:
- MISO-BRAINSTORMING
- Research brainstorming/plan
- Search strategies
- Notes from reading
- Brainstorming for interviews/ interview protocols/ transcripts
- Analysis of existing products/solutions
- Data collection and analysis
- Resource summaries
- Annotated media/ Reviews of media
- Collection of key quotes
- CRAAP source evaluation
